accelQ Inc, the leading test automation platform announced sponsorship of Dreamforce 2018

"accelQ's goal is to solve the deep rooted real world problems in the ALM solution space."

SAN FRANCISCO, CALIFORNIA, U.S., September 24, 2018 / EINPresswire.com/ -- Dreamforce 2018 is the world's largest vendor technology conference, and expects more than 120,000 people to register and experience the power of social and mobile cloud computing. With more than 2,700 sessions, opportunities to get hands-on with the latest product innovations, and thousands of Trailblazers to learn from, attendees can participate in interactive sessions, thousands of live demos and unparalleled networking. The conference will be held Sep 24-28 in San Francisco.

accelQ will be exhibiting in booth #1958, showcasing how its signature cloud-based test automation platform helps deliver lightning fast salesforce implementations at higher quality.

accelQ has significantly accelerated Salesforce test automation projects, enabling customers to closely align with continuous delivery of releases at higher quality.

VP of Technology at a leading information services company recently shared his thoughts about how accelQ made a significant difference in bringing agility and improve quality in their Salesforce initiatives.

"Staying ahead of the rapid changes and iterations in a large-scale enterprise platform can be challenging. The accelQ testing platform helps us do this, with an enterprise-grade solution that simply works. Through accelQ Universe, Test Suites, Reporting, and CI/CD Integration we are able to stay ahead of the rapid changes and ensure we deliver only quality enhancements to our Platform."

Mahendra Alladi CEO and Founder of accelQ was also reached on this occasion for his comments

"accelQ's goal is to solve the deep rooted real world problems in the ALM solution space. We are looking forward to show the salesforce community how codeless test automation can disrupt the automation landscape and help companies stay ahead of the rapid changes and iterations in a large-scale enterprise platform, maximising their ROI".

Salesforce, Dreamforce and others are among the trademarks of salesforce.com, inc.

About accelQ:

accelQ is the only cloud-based continuous testing platform today that seamlessly automates API and web testing without writing a single line of code. IT teams of all sizes use accelQ to accelerate their testing by automating critical aspects of lifecycle like test design, test generation and execution. accelQ drives automation with smart view recording coupled with powerful natural language automation to handle the most complex testing and automation requirements. Lowering the change and maintenance effort is where accelQ customers have saved 70%. accelQ makes this possible with an AI-powered core to bring self-healing automation amongst other unique capabilities.
