

India's only university to produce job creators and not job seekers

To ensure the rise in the Indian economy & eliminate unemployment, KL has taken the first step in this direction to encourage the young talent and their dreams.

CHICAGO, IL, USA, September 24, 2018 /EINPresswire.com/ -- The 21st century will be made, not managed, according to Reddit's co-founder, Alexis Ohanian. Startups and entrepreneurs are quite the buzzwords today and there's none who has not been influenced by the duo. Entrepreneurs are at the core of the making of the 21st century. The Indian Government is gearing up to embrace this wave of change by unleashing its entrepreneurial energy through initiatives such as Make in India, Skill India, and Startup India. These initiatives which are aimed at bridging the gap between academia and industry, foster innovation and commercialize research.

Academic institutes on their part are expected to proactively take part in this generational change and cooperate in building an innovative-friendly entrepreneurial ecosystem. It is the same belief and vision that Mr. Satyanarayana, President of KL Deemed to be University, just shares as well and affirms to the very own fact of developing an ideal entrepreneurial ecosystem. Wanting to curb the crisis of unemployment and ensure the rise in the Indian economy, KL has taken the first step in this direction to encourage the young talent and their dreams.

Mr. Satyanarayana, President of KL Deemed to be University

“

KL offers undergraduate, postgraduate, and research programmes under various disciplines, and has been instrumental in nurturing and garnishing the all-round development of millions of students”

Mr. Satyanarayana, President of KL Deemed to be University

“KL offers undergraduate, postgraduate, and research programmes under various disciplines, and has been instrumental in nurturing and garnishing the all-round development of thousands of students under its care. With innovation as the prime focus, KL has been identifying, introducing new specializations and offering programs in emerging areas. On one hand, it has been incorporating the Application orientation into the curriculum and exercising high standards of competence for academic delivery. On the other hand, it has been designing and implementing the educational system adhering to outcome-based International models,” Mr. Satyanarayana

said.

Young entrepreneurs of the country are the ones who take an active role in shaping the future of the country. All the young people who dream to take on demanding roles or become the job producers, there is one major drawback that they generally face, and it is the encouragement. This is exactly what KL has conceptualized with the Center for Innovation, Incubation, and Entrepreneurship (CIIE). KL has succeeded in building a state-of-art entrepreneurial ecosystem towards next generation entrepreneurs and set up a trademark model with a separate and dedicated center called CIIE in the year 2013.

It may be mentioned that the AICTE (All India Council for Technical Education) has released a Startup India policy in the year 2016 with a vision to create 100,000 tech-based startups and a million employment opportunities by 2025. KL has foreseen the need to produce entrepreneurs much earlier and has developed a policy even before AICTE has released its start-up policy. It has implemented and practiced trademarked strategies which by virtue have become a part of national level startup policy.

The university through its CIIE policy has ensured that handholding support is part of their academic journey for whoever wishes to become an entrepreneur. CIIE integrates entrepreneurship into academic curricula keeping students' academic profile in mind. As specified in AICTE policy, University has shown to the world the ecosystem they have built and provided all the benefits to the next generation studentpreneurs.

Establishing measures and adhering to the skills and competencies of students that not only improve their efficiency but also leverage their adeptness, KL makes the students to lead the procession of job creators. The university has clinched its spot among the top-ranked institutions and becomes the first university for being adorned as the center for innovation and entrepreneurship. Envisioned to uplift the future of graduates by making them the job creators who create jobs, KL, undoubtedly, undeniably and unquestionably becomes the only university in the nation to produce first-class entrepreneurs and not just graduates. It certainly Ranks #1 in India in producing the finest entrepreneurs and innovators.

About KL: [KL Deemed to be University](#) is situated in a spacious 100-acre campus on the banks of Buckingham Canal of river Krishna which is eight kilometers from Vijayawada city, Andhra Pradesh, India. Built within a rural setting of lush green fields, the institute is a virtual paradise of pristine nature and idyllic beauty. The campus has been aptly named "Green Fields" and the splendid avenue of trees and gardens bear testimony to the importance of ecology and environment. The campus ambiance is most befitting for scholastic pursuits. The university has been situated on a built-up area of around 15, 00, 000 SQ. Ft.
