and Bypass Fraud in telecom networks.

Don Reinhart, COO, LATRO: “Clients in the Africa and Middle East regions have always been among our closest customers as we partner with them to stay one step ahead of fraudsters. Our solutions have helped eliminate SIM Box Bypass Fraud in many markets. We will continue to support our customers in their development of innovative and mature [fraud management](#) and revenue assurance controls through new products and service offerings that we plan to introduce later this year. Our partnership with AIT demonstrates our commitment to focus on the region and build on our continued success. ”

Ayman Gomaa, Managing Director at Acacia Innovations Technology: “In addition to our already robust IT security solutions, we are proud to be partnering with LATRO Services. LATRO is very well established and known for their innovative solutions in fighting SIM Box Fraud and other costly telecom frauds. Our relationships with telecom operators and national regulators in the region will help LATRO's continued market expansion and provide an even higher level of support to our mutual clients in tackling and eliminating fraud. We look forward to a successful
