Smart Home Technology Rently Keyless Expands Platform with CiiRus Vacation Rental Software Partnership

LOS ANGELES, CA, US, September 25, 2018 /EINPresswire.com/ -- Rently Keyless, the enterprise smart home technology announced today a partnership with CiiRus Vacation Rental Software to provide cutting-edge smart home technology to vacation rental managers nationwide. Now CiiRus users will be able to integrate keyless entry locks, smart thermostats and more from Rently, a company trusted by millions of renters and thousands of property managers nationwide.

Integration with the CiiRus platform will allow vacation rental managers who use Rently to streamline access by eliminating keys, enhance property security with 24/7 activity logs and reduce utility bills with smart thermostat integration.

"Rently is excited to announce a partnership with CiiRus VRS to provide cutting-edge smart home technology to vacation rental managers nationwide. Now CiiRus users will be able to integrate Keyless entry locks, smart thermostats and more from Rently. Rently's cellular, wifi and Bluetooth connected options ensure that we have a solution for every manager's budget " said Rently Co-founder Merrick Schmidt-Lackner.
