Canadian businesses on five-year revenue growth. Growth 500 winners are profiled in a special print issue of Canadian Business published with Maclean's magazine and online at [CanadianBusiness.com](#) and [Growth500.ca](#).

“

We have aggressive targets for our business; we're proud of the steady growth we have achieved over the past several years. This is our fifth year on the list and I'm confident it won't be our last.”

John Preiditsch, President, Six S Partners

Six S Partners – the multiple-awarding-winning [Epicor](#) channel partner – made the 2018 Growth 500 list with five-year revenue growth of 211 percent, even exceeding its performance from 2017.

“The companies on the 2018 Growth 500 are truly remarkable. Demonstrating foresight, innovation and smart management, their stories serve as a primer for how to build a successful entrepreneurial business today,” says Deborah Aarts, Growth 500 program manager. “As we celebrate 30 years of the Canada's Fastest-Growing Companies program, it's encouraging to see that entrepreneurship is healthier than ever in this country.”

Six S Partners is a full-service consulting firm focused on operational improvements through enterprise resource management ([ERP](#)) software that integrates processes from finance, inventory, customer relationship management (CRM), supply chain management (SCM) and other departments. Its steady growth has contributed to the firm's expansion into the United States, with team members strategically located in key manufacturing regions. Six S Partners is a leading global platinum channel partner to their software partner, Epicor. Epicor is a leading worldwide provider of business software solutions to a range of industries; Six S Partners supports and empowers clients through their intensive change-management efforts.

“We have aggressive targets for our business and we're so proud of the steady growth we have achieved over the past several years,” says John Preiditsch, President and CEO, Six S Partners. “This is our fifth year on the list and I'm confident it won't be our last.”

In addition to this exponential growth, Preiditsch is especially proud to, once again, be the only ERP professional services firm to make the list. "Our team works really hard every day to help our clients achieve significant digital business transformation, so recognition like this is meaningful," he says.

Preiditsch points out that steady growth is hard to maintain in professional services; most firms fall off the list after their first or second appearance because they can't continue to invest in their growth at the same rate. He adds, "We've earned this success not just because of the software we sell but because of the service, support and knowledge we provide to our clients. Our continued growth is a direct result of the people who work on this team and the care they demonstrate to our clients long after the software contract is signed."
