

# MaiaLearning Partners with The Common App

*College and career readiness platform MaiaLearning will be able to send college application documents seamlessly through The Common App.*

PALO ALTO, CALIFORNIA, UNITED STATES, September 27, 2018

/EINPresswire.com/ -- Over a million students around the world use The Common App each year to apply to its 800+ member universities. These students create a single application for schools in the USA and 19 other countries. Beginning in the 2019-2020 application season, they will be able to do this from inside MaiaLearning's college and career readiness platform, where they and their counselors track applications, receipts, and results.

Schools use MaiaLearning to collect and organize the documents required for students' college applications. Students request recommendation letters. Counselors upload school profiles, transcripts, test scores, recommendations, students' certificates of accomplishment, and more. Everything is queued inside MaiaLearning, available for inspection and editing if needed.

“

We are thrilled to partner with The Common App to provide seamless integration between our global platforms. Schools and students worldwide have eagerly awaited this capability.”

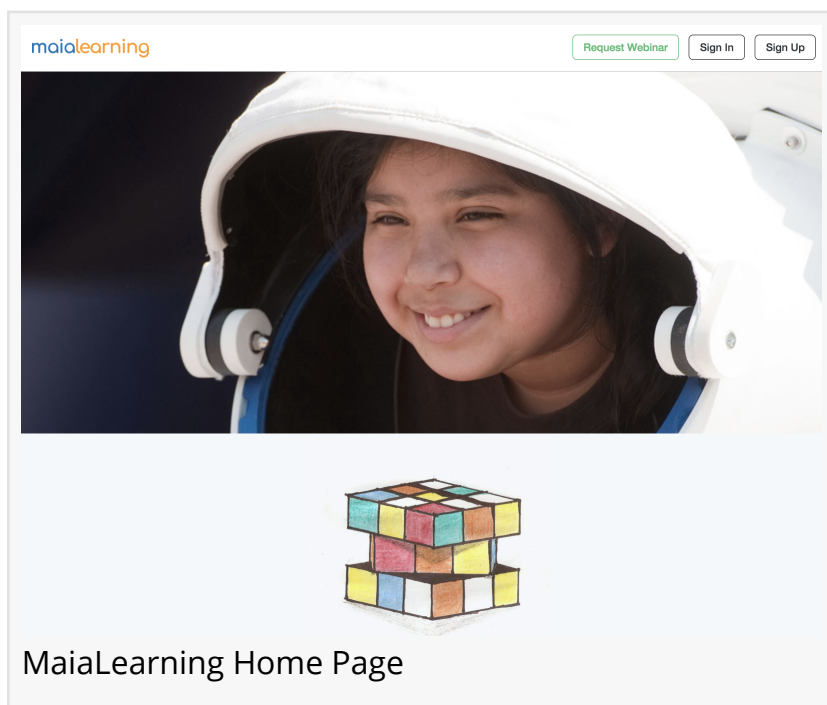

*Satish Mirle, CEO,  
MaiaLearning*

Counselors work with their seniors, who are researching and selecting colleges they'll apply to. Then, at application time, they can select a student's Common App schools and send the application documents with a single click. Those files will move seamlessly from MaiaLearning through The Common App to the intended colleges, with the send date automatically logged. Counselors see the document receipts automatically collected and displayed within MaiaLearning.

The new integration will provide more efficiency for counselors and peace of mind for students. Every part of the application process will be controlled and tracked in a

single place. MaiaLearning CEO Satish Mirle says, “We are thrilled to partner with The Common App to provide seamless integration between our global platforms. Schools and students worldwide have eagerly awaited this capability.”

No other system matches the diversity of colleges and universities accessible through the Common App. This Common App Integration will be part of the standard MaiaLearning platform. Learn more about MaiaLearning at [www.maialearning.com](http://www.maialearning.com).

About MaiaLearning, Inc.

MaiaLearning, Inc., founded in 2008, provides students with an engaging, all-inclusive platform for college and career planning. Its current software, MaiaLearning 3.0, helps counselors offer more effective guidance with less effort, and keeps families informed. MaiaLearning supports interactive learning communities among students, educators, and families in 30 countries.
