Condoms are no longer only a means to prevent unwanted pregnancy. They are fast emerging as necessities for sexual health and well-being. Over the last decade, there has been an increase in STDs and STIs, globally. At the same the awareness about sexual wellness has also increased. These factors, coupled with the changing economic

structure in the developed as well as developing countries, are driving the growth of the condom market across the world.

In the light of the increase in sexually transmitted diseases (STDs) and sexually transmitted infections (STIs), condom have become essential to prevent sexual ailments and ensure sexual wellness. The sale of condom is forecasted to cross 48 billion units during the forecast period.

Factors such as an increase in per capita discretionary income of people globally and a rapid growing number of dual-income households in developing as well as developed markets are major growth factors for the market. Church & Dwight, Ansell and Reckitt Benckiser are the leading players in the global market.
