Furthermore, increasing trend of smart cities development and city projects in developing countries are the factors that are driving the growth of the market, which leads to

increased application of public safety in-building wireless DAS in several residential and commercial building. However, the high initial cost and security and privacy concerns are factors hindering the growth of the market. The rise in digitally intelligent DAS and development of large multi-storey buildings are creating opportunities to boost the market.

The market on the basis of geography is divided among four major regions – North America, APAC, Europe, and Rest of the world. North America is considered to hold largest market share in public safety in building wireless DAS system, during the forecast period 2018-2023, the rise in public infrastructure are driving the growth. Further increasing data traffic due to increase in IoT and smartphones in this region is hindering the growth of the market. APAC is considered to be the fastest growing region due to increasing number of smart cities in developing countries such as India and China.

## The report covers

- Comprehensive research methodology of Global Public Safety in-Building Wireless Das System Market
- This report also includes detailed and extensive market overview with Analyst insights & key market trends.
- Exhaustive analysis of macro and micro factors influencing the market guided by key recommendations.
- Analysis of regional regulations and other government policies impacting the Global Public Safety in-Building Wireless Das System Market
- Insights about market determinants which are stimulating the Public Safety in-Building Wireless Das System Market
- Detailed and extensive market segments with regional distribution of forecasted revenues.
- Extensive profiles and recent developments of market players.

## About Orion Market Research

Orion Market Research (OMR) is an Indian research company known for its crisp and concise reports. The company is equipped with an experienced team and young brigade of analysts. The company provides quality syndicated research reports, customized research reports, company profiling, consulting and other research-based services. OMR provide global and regional market reports of various domains such as healthcare, energy, IT, chemicals, and automobiles. OMR provide a 360-degree view of the market with parametric analysis, key market insights, key findings, statistical forecasts, competitive landscape, extensive segmentation, key trends, strategic recommendations and detailed company profiles.
