

# Alaska Mesothelioma Victims Center Now Urges a Commercial Fisherman with Mesothelioma Because of Asbestos Exposure in Alaska to Call for Direct Access to the Nation's Top Lawyers for the Best Client Compensation

NEW YORK, NEW YORK, USA, October 4, 2018 /EINPresswire.com/ -- The Alaska Mesothelioma Victims Center says, "We are reaching out to a commercial fisherman who now has mesothelioma due to asbestos exposure while working on a fishing boat or boats that had a home port in Alaska. A commercial fisherman with mesothelioma typically did not work on just one fishing or crab boat. Typically, we find that these men did everything on the boat from mechanics, repairs, or upgrades. If you are a commercial fisherman and you have been diagnosed with mesothelioma, or their family, please call us anytime at 800-714-0303. What we want to do is ensure a victim of mesothelioma receives the very best possible financial compensation."

"A mesothelioma compensation claim for commercial fisherman in Alaska or anyone in the industry could start around five hundred thousand dollars. Add Navy experience to the list if applicable, and a compensation claim could reach into the millions of dollars. The claim is not against the military or in most instances boat owners who employed the fisherman, rather it is against the manufacturers of parts or equipment that contained asbestos on a boat or boats. Call us at 800-714-0303 and we'll explain everything. Our top priority is seeing to it that people with mesothelioma receive the very best possible financial compensation." <http://Alaska.MesotheliomaVictimsCenter.Com>

“

We want to make certain is that you have on-the-spot access to some of the nation's leading mesothelioma attorneys who routinely earn the best possible financial compensation for their clients."

*Alaska Mesothelioma Victims Center*

Types of commercial fishing boats where a commercial fisherman worked where they could have been exposed to asbestos from the Mesothelioma Victims Center:

- \* Seiners
- \* Longliners
- \* Gillnetters
- \* Crabbers
- \* Trawlers
- \* Drifters
- \* Factory Ship-Processor

NOAA Fact: In 2015, Alaska led all states in both volume (6.0 billion pounds) and value of landings (\$1.8 billion). In addition to Alaska, the top states for volume or landings include Louisiana, Washington, Virginia, Maine, Massachusetts, and Mississippi.

The Alaska Mesothelioma Victims Center's free services for people with mesothelioma anywhere in communities such as Anchorage, Fairbanks, Juneau, Sitka, Ketchikan, Eagle River, Homer, Palmer and Nome.

For the best possible treatment options in Alaska we strongly recommend the following three health care facilities with the offer to help a diagnosed victim, or their family get to the right physicians at each hospital. Alaska Regional Hospital-Anchorage: <https://alaskaregional.com/>, Providence Alaska Medical Center-Anchorage: <https://alaska.providence.org/locations/p/pamc>, The University of Washington Cancer Clinic: <http://www.uwmedicine.org/locations/surgical-oncology-uwmc>.

High-risk work groups for exposure to asbestos in Alaska include US Navy Veterans, workers at Elmendorf Air Force Base, Fort Richardson, Eielson Air Force Base, oil field workers, off shore oil/gas rig workers, oil pipeline workers, marine mechanics, commercial fishermen, pulp and paper mill workers, power plant workers, public utility workers, manufacturing workers, carpenters, plumbers, electricians, auto mechanics, machinists, welders, insulators, or construction workers. In most instances these types of people were exposed to asbestos in the 1950's, 1960's, 1970's, or 1980's. <http://Alaska.MesotheliomaVictimsCenter.Com>

The states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon.

For more information about mesothelioma please refer to the National Institutes of Health's web site related to this rare form of cancer: <https://www.cancer.gov/types/mesothelioma>
