

# Louisiana Mesothelioma Victim Center Now Urges a Navy Veteran with Mesothelioma in Louisiana With Asbestos Exposure at A Shipyard to Call for Direct Access to The Nation's Top Lawyers for Better Compensation Results

NEW YORK, NEW YORK, USA, October 5, 2018

/EINPresswire.com/ -- The Louisiana

Mesothelioma Victims Center says,

"Approximately half of the people with mesothelioma we talk to each year are Veterans of the US Navy. Of this group, a significant number were required to stay on board their ship or submarine while it underwent repairs or an overhaul at a navy shipyard. Another trend we see with Navy Veterans with mesothelioma is that they often went to work for a shipyard after their time in the navy. In both instances, these types of people would have had extreme exposure to asbestos. The compensation for these types of people with mesothelioma could easily start at around one million dollars as we would like to discuss anytime at 800-714-0303.

"The only catch to significant financial compensation settlements is that the Navy Veteran or shipyard worker with mesothelioma needs the very best representation by the nation's most skilled, experienced and capable mesothelioma attorneys. There is a direct relationship between receiving the very best possible mesothelioma financial compensation and being represented by some of the nation's most capable mesothelioma attorneys. Our service does just that-we offer immediate access to these remarkable legal professionals."

“

We are incredibly passionate about making certain you are dealing directly with the nation's top mesothelioma attorneys-because they will get you the best possible compensation results.”

*Louisiana Mesothelioma Victims Center*

The Louisiana Mesothelioma Victims Center wants to emphasize there is a statewide initiative available to a diagnosed victim anywhere in Louisiana including communities such as New Orleans, Baton Rouge, Shreveport, Lafayette, Lake Charles, Kenner, Bossier City, or Monroe.

When it comes to treatment options for mesothelioma in Louisiana the Louisiana Mesothelioma Victims Center strongly encourages diagnosed victims to contact the following cancer treatment centers in Louisiana, and in

Texas. Note: The MD Anderson Cancer Center in Houston, Texas may be one of the most capable mesothelioma treatment centers in the world: Oshner Cancer Institute New Orleans;  
<http://www.louisianacancercenter.org/research/partners/ochsner/>, The MD Anderson Cancer Center Houston, Texas: <https://www.mdanderson.org/>

High-risk work groups for exposure to asbestos in Louisiana include Veterans of the US Navy, power plant workers, shipyard workers, oil refinery workers, chemical plant workers, public utility workers, factory workers, plumbers, electricians, insulators, auto mechanics, machinists, and construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's. <http://Louisiana.MesotheliomaVictimsCenter.Com>

The states indicated with the highest incidence of mesothelioma include Maine, Massachusetts,

Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon.

For more information about mesothelioma please refer to the National Institutes of Health's web site related to this rare form of cancer: <https://www.cancer.gov/types/mesothelioma>.
