

Meet with Konstant Team at GITEX 2018 and Discuss Your IT Needs

Here is a not to miss delicious coincidence of being discerned by the clients in GITEX 2018 and getting accredited as a top app developer by GCC countries!

PALO ALTO, CALIFORNIA, UNITED STATES, October 4, 2018
/EINPresswire.com/ -- Organized annually by Dubai World Trade Centre and GITEX Future Stars, GITEX puts forward the innovative work done by recognized IT organizations globally, helps them know work done by others, pick and select their future tech partners and most importantly expand their business.

GITEX has been attracting IT enthusiasts from across the globe, ICT retailers and suppliers, consumers, students, and IT professionals. Due to this Dubai is soon becoming the next hub of IT technologies. This exhibition cum workshop has been spurring many developing countries to enhance its homegrown technologies instead of paraphrasing work done by developed ones.

GITEX Technology Week, 2018 is soon going to steal the limelight and unveil an increasing traction amongst millennial citizenry. On-ground feed suggests that IT enthusiasts here are front-ending the wave, which is the driving force behind expanding the GITEX brand presence. It is a technology-enabled platform which offers new age consumers with cutting edge technologies. Organizations have found a medium to ride on the back of R&D led product innovations, distribution, coupled with strong brand positioning.
