biannual survey with doctors in their network to find which physicians and specialists are the best in their respective fields. The Gallup-certified poll is a sign of recognition from respectable doctors within the field that pays tribute to the life-long effort that the list’s entries have put into their craft, leading up to their induction on the list.

The recent peer-to-peer poll lists 49 doctors from the Clark County Medical Society (CCMS) out of over 1,500 members that belong to the Southern Nevada organization as some of the nation’s most reputable specialists and physician. In recognition of their achievement, CCMS President Dr. Jeffery Ross congratulated CCMS members who made the

list by stating, “It is always great to see our physicians being recognized for the great work they do by a national peer-to-peer survey organization.” CCMS Executive Director Alexandra P. Silver shares this notion by saying, “It’s really an honor to get the opportunity to work with these incredibly talented physicians through their membership in the Clark County Medical Society.”

The advances Dr. Julio Garcia has made as President of the Aesthetic Surgery Education and Research Foundation, a practitioner in regenerative medicine, and a physician within the CCMS network has helped him achieve the acclaim of being considered one of America’s leading specialists by Best Doctors. “After 30 years of medical practice in Las Vegas, I am honored to be included in the list of ‘Best Doctors in America’,” Dr. Garcia said of his accomplishment. For all of his peers who have joined him on the list and voted for him as one of the nation’s best doctors, he holds a high level of gratitude and dedication to their support. He concludes by stating that “I wish to thank the physicians that supported me as well as to all my patients over the last 30 years. Looking forward to continuing providing health care to more in the Las Vegas valley.”

#### About Best Doctors

Founded in 1989 by Harvard Medical School professors, Best Doctors is a global benefits provider that serves more than 40 million members in every major region of the world with services such as access to an unrivaled network of physicians selected as the best in their field. Since their inception, they have conducted a “Best Doctors in America” list, one of the largest ongoing peer physician polls in health care to identify the doctors that other physicians trust most. Once a physician receives consensus, s/he is researched and verified for clinical activity, licensure and disciplinary actions. The only way for a physician to be selected to the database is to be nominated by and then receive voting consensus from Best Doctors physicians. They develop and maintain detailed profiles of each physician in the database through in-depth, ongoing research. The profile includes education and training, diagnoses and procedures in the doctor’s expertise, publications, special areas of medical research and experience and board certifications. Gallup® has audited and certified Best Doctors, Inc.’s database of physicians, and its companion list, as using the highest industry standards, survey methodology and processes.
