

# Nexus Gold Corp - Developing a 15km gold trend in West Africa

*Eight drill-tested and confirmed gold zones with significant upside resource potential*

VANCOUVER, BC, CANADA, October 9, 2018 /EINPresswire.com/ -- Vancouver, Canada – October 9, 2018 - Nexus Gold Corp. ("Nexus" or the "Company") (TSX-V: NXS, OTCQB: NXXGF, FSE: N6E) is pleased to provide a new video that highlights the Company's recent work at its Bouboulou-Rakounga gold project in Burkia Faso, West Africa.

Please view the video here:

Nexus Gold is a Canadian-based junior gold exploration and development company operating primarily in West Africa. The company is currently concentrating its efforts on establishing a compliant resource at one or more of it's three current projects.

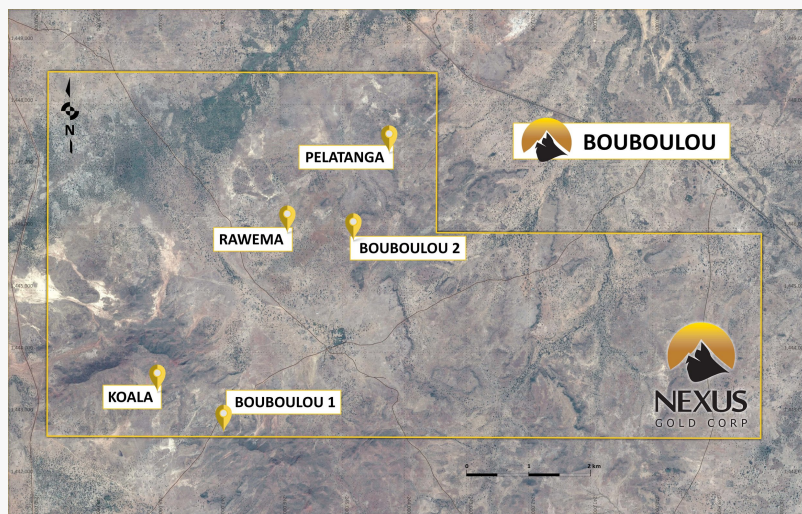

The 38-square km Bouboulou project comprises no less than five established gold zones contained within three separate 5km gold trends. The adjacent 250-square km Rakounga gold concession extends the Bouboulou gold trends and currently contains three drill tested zones of mineralization. The Niangouela gold concession is a 178-square km project featuring high-grade gold occurring in and around a primary quartz vein and associated shear zone approximately one km in length.

Recent work includes a 9km soil grid geochemical program which confirmed the presence of a 15km gold trend that reaches across both the Bouboulou and Rakounga properties.

For more information on our projects including details, past and historical results, a 43-101 technical report, management bios, and more, please visit [www.nexusgoldcorp.com](http://www.nexusgoldcorp.com).
