“

Growing demand of people using web is driving the growth of web content management market”
OMR Analyst

With increasing internet users in the world, demand for organized and attractive web content has increased for better influence of the content on users which in result augmenting the growth of the market. Rise in the number of online platforms for discussion and impact of social media websites among the people are paving the growth

of market. Website organizations engaged in web content are adopting various strategies for visitor's attraction and investing in the research and development for efficient content management which in result is increasing the market value substantially. Limits on the organization for [content publications](#), government guidelines, and license issues are challenging the market growth. With the growing smart device users and increasing engagement of people in the internet banking, shopping and other digital works is anticipated to create opportunities for the market players.

The market on the basis of geography is divided among four major regions – North America, APAC, Europe, and Rest of the world. North America is the leading market. The market is expected to grow at a stable CAGR. North American market is driven by increasing adoption of digital platforms among business, healthcare, hospitality and other industries. In the US, education sector is demanding the web content management for better guidance. Europe is the second highest market holder for web content management due to established internet technologies. Due to very high internet penetration in the developing economies of India and China, the market is growing with highest CAGR in the forecast period.
