

Borden Waste-Away Group and Customers Continue Joint Funding of Life Saving Cancer Research

For its 7th Straight Year, Borden Waste-Away Group Donates All Proceeds Raised to Goshen Hospital's Cancer Research Fund by Matching Customer Donations

ELKHART, INDIANA, UNITED STATES, October 10, 2018 /EINPresswire.com/ -- As Breast Cancer Awareness month is well underway, Borden Waste-Away Group met with Goshen Health Foundation to present fundraising proceeds for cancer research that is more far-reaching than breast cancer alone.

In 2011, Elkhart-based Borden Waste-Away pioneered an exclusive program called the "[Trash](#) Cancer Matching Fund" where interested customers add \$1.00 to their monthly bill as a donation for cancer research. Each year, Borden matches these donations dollar for dollar, with the combined amounts raised donated to Goshen Health Foundation in connection with Goshen Hospital in support forty-five active clinical trials. The clinical trials include a wide range of studies that includes breast, lung, colorectal, lymphoma, esophageal, head & neck, prostate, melanoma, multiple myeloma, pancreatic, and other cancers. Other programs supported includes preclinical studies for early detection, cancer vaccinations and improved radiation oncology verification systems, as well as The Tissue Bank.

Including donation funding from 2017, Borden Waste-Away Group totaled an astonishing \$19,346.18 during this funding period, for a 7-year total of over \$160,800 dollars.

"Seeing the number of customers each year who are dedicated to donating to such a worthy cause, I am so very happy to help with our ongoing contributions to this life saving program", relates Chris Himes, President of Borden Waste-Away, "It's awe-inspiring and humbling to help support ongoing clinical trials, as well as important cancer research."

To participate in Borden Waste-Away Group Trash Cancer Matching Fund Program, we want to encourage everyone to call Borden's Customer Support team at (800) 386-3313 ext. 570 to join in fight against cancer.

About Waste-Away Group
