Increasing government initiatives promote the growth of Video surveillance as a service as a service market in the near future”
OMR Analyst

As the emphasis towards security across the globe is increasing, the demand of video surveillance as a service product has increased significantly. Numerous companies are laying emphasis on increasing their research and development on video surveillance products. As new technologies emerge which work with greater efficiency, the demand of video surveillance as a service is expected

to augment significantly. Moreover, as the number of smartphone users increase in the country, and coupled with this as the real time connectivity of the smartphones increases, the demand of video surveillance as a service as a service has increased significantly, thereby creating opportunities for the growth of the market in the near future. However, high initial cost of the equipment and breach in the privacy of the instruments can prove to be restraints to the growth of the market.

The market on the basis of geography is divided among four major regions – North America, Europe, APAC, and Rest of World. North America is expected to account for a significant share in the revenue generation of the market. APAC is expected to show lucrative growth opportunities owing to the low cost of manufacturing in the region coupled with the advancements in the infrastructure of the region. European countries have favorable government regulations which promote the growth of the market. While the rest of the world is expected to witness steady growth over the forecast period. Few of the key players in the market include 3GC Group, Agent Video Intelligence Ltd., Artec Technologies AG, Axis Communications AB and Bosch Security Systems Inc. among others.

The report covers

Comprehensive research methodology of Global VSaaS Market. This report also

includes detailed and extensive market overview with Analyst insights & key market trends. Exhaustive Analysis of macro and micro factors influencing the market guided by key recommendations.
