“

Initiatives by governments and international organizations for vaccination program would drive the growth of toxoid vaccine market”

OMR Analyst

“The toxoid vaccination market is expected to grow due to increase in funding for immunization programs. A number of foundations are providing funding for the vaccination of the people and children of under-developed countries. Some major organizations which are working in this field of vaccination and immunization are GAVI Alliance, US Centers for Disease Control and Prevention, Bill & Melinda Gates Foundation, UNICEF, PATH, US Agency for International Development (USAID) and United Nations Foundation for International Partnerships (UNFIP) and so on. A framework has been approved by the 194-members

state of the World Health Assembly to decrease the mortality by 2020 by providing vaccines for people in all communities. It is under the 2011-2020 Global Vaccine Action Plan (GVAP). Under the plan of 2011-2020, the goals are expected to expand the reach of vaccination globally. The major objective of the plan is to extend existing coverage for vaccines, introduction of vaccines for new disease. This is expected to fuel the market during the forecast period 2018-2023 for the global toxoid vaccine market.”

The global toxoid vaccine market on the basis of geography is divided into – North America, APAC, Europe, and Rest of the world. North America is expected to hold the largest market share. The major driver of the market in North America are government policies in the favor of market, high coverage area of vaccination in North American countries and increasing investment and contribution by the organization of the developed nations for immunization in low and poor countries. Asia-Pacific market is expected to be fastest growing market during the forecast period of 2018-2023 due to increasing healthcare expenditure and improved healthcare infrastructure.
