Another difficulty they had while using a manual system is that it is time-consuming. They had encountered wasting so much time just to keep track of employee competencies when training and assessments are needed to be renewed and to demonstrate competencies to auditors during unannounced inspections or external audits.

The university considered different applications, however, they have found to be cumbersome and costly, especially when adding additional modules or for customization. After researching different quality management solutions, the university finally chose MyEasyISO QMS software as it was capable of meeting 100 percent ISO requirements and was more affordable compared to other cloud solution vendors.

MyEasyISO offers a unique approach to manage ISO compliance and with a centralized repository that tracks and manages compliance activities, thereby eliminating cumbersome manual work. MyEasyISO's [document management](#) module ensures user access to the most updated version of the records and gives you the ability to maintain a completely paperless document control system throughout the organization.

MyEasyISO delivers intuitively high configurable drag and drop technology, provides complete visibility of employee records, training activities and also can track, manage and schedule training events effectively. This result in quick and simple access during inspections or audits. It also has the ability to support and facilitate the organization's evolving needs.

"MyEasyISO is an excellent software solution and has made a huge difference to our document controls. We are delighted with MyEasyISO and also it provides the efficiencies required for us to meet and maintain ISO compliance requirements," said Manager from Ecuador university
