Consider ACH Payment Processing

Gulf Management Systems' payment specialists create custom payment solutions for businesses at transparent rates, seeking to become partners with all of its clients. From start to finish, Gulf representatives ensure each client's success, providing them with a plethora of options to best serve their customers and simplify payment processing via a scalable and personalized approach. Since 1992, the company has boosted productivity and savings for businesses through its technology and payment processing expertise.

What's more, as an all-in-one payment processor specializing in technology-enabled debit card, credit payments, ACH, EFT, e-commerce and direct deposit services, Gulf Management Systems brings the experience demanded of all types of businesses, boasting the capability to handle all points of the payment process for an operation.

"We are committed to our customers by way of unique customer service – different from most payment processing providers," says Charles G. Billone, President of Gulf Management Systems. "Each of our accounts is supplemented by a hands-on, dedicated personalized coach that supports the client, and this coach puts in the required effort to set up the account, learn the essence of the client's business and provide a detailed orientation to ensure the user is well-versed with regard to processing as to avoid any errors or delays – thus contributing to their overall confidence as a merchant.

"At this year's IPPA Business Excellence Conference, we plan on exhibiting these characteristics for all attendees via demonstrations and discussions to show what kind of organization we are in the world of employee payment solutions."

Gulf Management also became PCI Compliant in 2017, meaning each of its clients could rest assured knowing they receive the highest level of security. Benefits of PCI Compliancy include decreased risk of a security breach, obtainment of a guideline standard regarding how to handle data, peace of mind knowing data is secure and avoidance of costly fines.
