

# KAP Project Services Rolls Out New Website

---

LA PORTE, TX, USA, October 16, 2018 /EINPresswire.com/ -- After months of hard work, we are delighted to officially announce the launch of our new website. Same address, great new content. Check us out at [www.kapproservices.com](http://www.kapproservices.com).

As you might have heard, a lot of new and exciting changes are taking place at KAP. New branding, new software and solutions, and a growing product line. Our goal with this new website is to provide our visitors an easier way to learn about KAP and the changes we are making to our business model. Our new site will allow the visitor the ability to access information about our products and services that has made KAP the vendor of choice in the STO industry for over 15 years, as well as access to information on our new companies and our new offerings.

Amongst the new features the site contains integrated social media buttons for LinkedIn to foster improved communication with our clients. We will be constantly updating our content with helpful information, articles, newsletters, company announcements and client success stories.

We hope you find the new website fresh and modern; we worked hard to make sure it contains valuable insights to the ever changing STO environment. Full details of the services available can be found by visiting the URL above. Also please visit our other websites at [www.stologix.com](http://www.stologix.com) and soon to be launched [www.tactexs.com](http://www.tactexs.com).
