

# REVE Systems Launched REVE Session Border Controller (SBC) at 38th Gitex Technology Week Dubai, 2018

*REVE Systems launched REVE Session Border Controller, the carrier grade wholesale softswitch at 38th Gitex Technology Week Dubai.*

BUKIT BATOK , SINGAPORE, October 23, 2018 /EINPresswire.com/ -- REVE Systems the IP Software solution provider launched REVE [Session Border Controller](#) at the 38th Gitex Technology Week Dubai, which was held on 14th to 18th October 2018. In this event, REVE Systems launched its carrier-grade [wholesale Softswitch](#) REVE Session Border Controller.

Commenting on the launch, REVE Group CEO Mr. M Rezaul Hassan said, “We are quite happy to launch REVE SBC, which is a next generation wholesale platform for carriers, who want to offer multiple services such as Voice, SMS and Mobile Top-up on a single platform under a complete secured environment.”

“

We are quite happy to launch REVE SBC, which is a next generation wholesale platform for carriers, who wants to offer multiple services in a single platform under a complete secured environment.”

*REVE Group CEO, Mr. M Rezaul Hassan*

Mr. Hassan along with REVE Systems Global Sales Head Mr. Raihan Hossain was present at the event to meet with players of the VoIP wholesale industry. As per company reports, REVE SBC has been able to gain the attention of some reputed wholesale carriers due to its advanced routing and management platform.

The core features of REVE Session Border Controller includes:

- Industry's Most Advanced Fraud Detection System
- Scalability up to 100000 Concurrent Calls
- Integrated with Real-Time Billing
- Absolute Prepaid with traditional Postpaid Platform
- All Possible Routing in the Industry
- Wholesale SMS & Mobile Top Up
- Multi-Location and Language based 24x7 support

With its much advanced carrier-grade technology, REVE SBC allows operators to deploy their services to handle any type of complex routing and subscriber management.

During the Gitex event, REVE Systems also showcased its mobile OTT platform for

communication service providers. The OTT platform will empower service providers to launch their own branded OTT apps and offer services like Instant Messaging (IM), Media Sharing, Audio-Video Calling beside Cheap International Outbound Calls and Mobile Top Up.
