

Yellow Pages Goes Green® Calls on Environmental Organizations to Support Online Only Yellow Pages

Original opt-out registry expands mission with complete Yellow Pages service, no print edition. Asks environmentally friendly service providers to support.

EAST NORTHPORT, NEW YORK, UNITED STATES, October 28, 2018
/EINPresswire.com/ --

YellowPagesGoesGreen.org, an

environmentally friendly phone number lookup service, has announced it is calling on other “green” and “environmentally friendly” service providers to support its mission of completely eliminating print phone books by fuelling awareness of its service.

“

Environmental organizations can help discourage print Yellow Pages services from printing their books, which litter the environment with paper-waste.”

Michael Keegan

“By simply supporting, referencing, linking-to and sharing the digital only version of our Yellow Pages, at YellowPagesGoesGreen.org, companies and environmental organizations can help discourage print Yellow Pages services from printing their books, which litter the environment with paper-waste.” said Michael Keegan, CEO of Yellow Pages Goes Green.

As the original opt-out of print registry, our PaperlessPetition.org is what first fueled public awareness to the idea of an opt-out of print service.

Environmentally friendly service providers can support this mission simply by adding YPGG to their websites, blogs, Facebook and other social network pages.
