

# Lockdowel Drawer Slides Pass Testing Required by WI and AWI

*Lockdowel Snap-in Drawer Slides have passed rigorous testing required by the Woodwork Institute and Architectural Woodwork Institute*

FREMONT, CALIFORNIA, UNITED STATES, October 30, 2018 /EINPresswire.com/ -- [Lockdowel](#) Inc. announces the company's snap-in drawer slides were recently tested by Integrity Testing Laboratories and have passed all ANSI/BIFMA testing requirements for hardware as specified by the Woodwork Institute (WI) and the Architectural Woodwork Institute (AWI). In a written statement by Ed Leach, Laboratory Manager for Integrity Testing Laboratories, he writes: "You've done all the slide tests... and far exceeded all requirements..."

The testing included 50,000 cycle testing with a 100 lb load and extendable member testing of the Lockdowel undermount soft close, sidemount soft close, and three-piece sidemount drawer slides.

Lockdowel Drawer Slides have passed required testing by AWI and WI.

Lockdowel won the 2017 AWFS Visionary Award for its snap-in drawer slides because they require no tools or screws, and installation time is three times faster than conventional drawer slides. With CNC routed slots allowing for perfect alignment, drawer adjustment is minimal.

“

You've done all the slide tests... and far exceeded all requirements..."

*Ed Leach, Integrity Testing Laboratories Laboratory Director*
