

Positive TimeControl Reviews Continue to Pour in to HMS Software

Testimonial reviews and Case Studies of HMS Software's TimeControl timesheet read like a who's who of industry.

MONTREAL, QUEBEC, CANADA, October 30, 2018 /EINPresswire.com/ -- HMS Software, the publishers of the popular TimeControl timesheet system continue to post reviews they have received from happy clients. The HMS Software list of testimonials and [case studies](#) reads like a who's who of industry.

From the company's inception, having clients be referenceable has been one of the cornerstones of our mission."

Chris Vandersluis

"From the company's inception, having clients be referenceable has been one of the cornerstones of our mission," says Chris Vandersluis, President of HMS Software. "We have been fortunate to have awesome clients and they are very generous to share their opinions

of HMS and our TimeControl timesheet system."

Testimonials and Case studies on the TimeControl website go back some 20 years with such recognizable companies as Bombardier, Rolls Royce, Koch Industries and CGI among them.

"We have had to retire many of the [testimonial](#) letters and case studies from the website because of their age and the relevance to today's market," explains Storm Leutner, HMS Software's Director of Operations. "It's just impossible to keep them all online."

The most recent addition to the remarkable list of reviews comes from R2.ca based in Quebec, Canada and is in both French and English. In it, Marie-Lyne Vachon, the Financial Controller explains how TimeControl has been in use at R2 for over 5 years now and is used for tracking Research and Development tax credits.

"It is one of the only timesheet software systems that was able to be configured to our specific needs," explains Vachon, highlighting TimeControl's renowned flexibility.

To read Ms. Vachon's letter, go to TimeControl.com/why-timecontrol/testimonials/r2. To see all of the published testimonials and case studies about TimeControl, go to Timecontrol.com/why-timecontrol.
