

NEW COMPRESSED AIR GUNS AVAILABLE WITH ENERGY SAVING AND NOISE REDUCING NOZZLES

Air amplifying nozzles meet OSHA standards for safety and are noise reducing. Used with quality air guns they can save energy and improve the work environment.

RICHMOND HILL, ONTARIO, CANADA, November 12, 2018 / EINPresswire.com/ -- Nex Flow Air Products Corp. now offers three types of [air guns](#) that are ideal for any factory environment:

The Easy Grip [air gun](#) with air amplifying nozzles ad an option to add extensions and even swivels at the end of the extension to get into difficult areas.

The Easy Grip "light" is a small air gun with a very small air amplifying safety nozzle for smaller target blow off applications.

and

The Hand Comfort button air gun for those who prefer a very small air gun with push button activation instead of a trigger.

All air guns have ergonomic designed for comfortable use. Each type of air gun has various options for blow off with the Easy Grip the most flexible to allow extensions added so they can blow into hard to get to locations.
