

Private Jet Charter Company New Flight Charters Awarded ARGUS® Registered Broker Rating

Air Charter Company One Of Few To Earn Coveted ARGUS® Broker Ratings

JACKSON HOLE, WYO, USA, November 5, 2018 /EINPresswire.com/ -- [New Flight Charters](#), a nationwide leader in on-demand private jet charters, announces it has earned the ARGUS® Registered Charter Broker Rating.

The rating puts New Flight Charters with elite company; of the estimated 380 charter broker companies in the U.S., just 22 carry an ARGUS® Rating.

In the absence of FAA certification, DOT registration or formal licensing of air charter brokers, the ARGUS® broker ratings provide an independent proof of compliance with industry best practices and requirements.

The ARGUS® Charter Broker program confirms that a charter broker is a legitimate business entity, understands and adheres to industry best practices, and is committed to the utmost in safety and service-oriented charter operations. This all translates into the confidence that charter customers and charter operators are looking for in an air charter broker.

“

We fully support programs such as those created by ARGUS® ... that set and validate standards to help separate quality brokers from others.”

*Air Charter Safety Foundation
in Washington D.C.*

As the most recognized source of information on air charter business around the world, the ARGUS® Charter Broker Program raises the bar to meet the high expectations and due diligence requirements of charter consumers and commercial aircraft operators. Although there are many charter brokers in the industry, only the finest can qualify as an ARGUS® Rated Charter Broker.

The Air Charter Safety Foundation (ACSF), in Washington D.C., has published support for the ARGUS® Charter Broker program;

“For many years, those of us familiar with the air charter industry have recognized that there is a

significant variance in the overall quality, qualifications, business integrity, and financial resources of air charter brokers. ACSF believes that brokers can serve an important role in the air charter industry on behalf of both clients and operators. We fully support programs such as those created by ARGUS® and other reputable organizations that set and validate standards to help separate quality brokers from others."

New Flight Charters has been a member of the Air Charter Safety Foundation since 2009.

The ARGUS® Charter Broker Program is the only charter broker ratings program endorsed by BACA-The Air Charter Association Ltd. New Flight Charters is an approved BACA member.

About New Flight Charters

An aviation leader since 2004, New Flight Charters arranges over 1,400 custom domestic and international private flights each year with top-rated aircraft, a Best Price Guarantee and perfect safety history. The company is one of the most accredited in the industry; both ARGUS® and Wyvern® registered, Accredited-Rated A+ by the BBB, rated D&B Gold, named to the Inc. 5000 four consecutive years and a registered U.S. Government Contractor.
