

Summit Health Group announces Regenerative Therapy to treat a wide range of orthopedic and pain related issues

Summit Health now providing a natural solution to treat tennis elbow, golfer's elbow, rotator cuff damage and shoulder pain.

THOUSAND OAKS, CALIFORNIA, UNITED STATES, January 16, 2019 /EINPresswire.com/ -- Summit

“

The addition of PRP has been extremely successful, we have experienced remarkable results when treating a wide range of orthopedic issues, it's natural and uses the body's own cells to to heal itself.”

Shay Shani D.C.

Health Group is now offering both autologous and allogenic treatments to help patients deal with damage, pain and the loss of use from joint injuries by using the power of their own stem cells and regenerative biologic allografts.

Shay Shani D.C. co-founder of Summit Health Group stated, “Our physicians have a great reputation for providing the right medical solutions to our patients. Our entire team has both seen and personally experienced the amazing results of these groundbreaking procedures. The addition of PRP has been extremely successful, we have experienced remarkable results when treating a wide range of orthopedic issues. We work with only the highest

quality products to provide effective, affordable and non-surgical solutions to our patients. We do all we can to help those in pain not just mask their symptoms but have a chance to resolve the problem and get back to enjoying their life to the fullest.” Platelet Rich Plasma therapy continues to gain popularity daily through national and international endorsements because it uses the patient's own blood without any drugs, hundreds of professional athletes have utilized PRP to treat their injuries.
