

# Why You Should Have Your Carpet Professionally Cleaned

---

*Kleen Up Pros, a carpet cleaning service from Durham Region, Ontario, provide insight into why carpets should be professionally cleaned on a regular basis.*

DURHAM REGION, ONTARIO, CANADA, November 13, 2018 /EINPresswire.com/ -- When it comes to our homes, we always notice a new scratch on the coffee table, or a mark in the walls, but we often dismiss carpets. Usually, with carpets, people often chalk up discolouring or stains as “wear and tear”, saying, “We walk on it every day, of course it will look used.” Few people realize that the faded colour that we see in most carpets often just comes from ingrained dirt and dust, and the carpets can look like new again with the help a professional carpet cleaner.

It is recommended to have your [carpets professionally cleaned](#) twice a year. There are several important reasons to do so, among which are cleaner air to breathe, less allergens in the house, and a better overall appearance.

## Benefits of Professional Carpet Cleaning

### 1. Increases your carpet's life

Carpets do experience a lot of wear and tear, so overtime fabrics will fray and discolour. Depending on the quality of the carpet, they may need to be replaced every 5 to 10 years, but if you regularly have you carpet cleaned and conditioned, it will increase the longevity of the carpet fibres and keep them looking newer, longer.

### 2. Create a healthier home

This is one of the biggest reasons to get your carpets professionally cleaned on a regular basis. Vacuuming alone cannot get out all of the dirt and allergens, even if it is a Dyson. There are dirt and dust particles that will ingrain themselves deep into the carpet fibres. The only way to get rid of these is by having the carpet professionally steam cleaned and treated. This will give you home better air quality, and a healthier environment for your family.

### 3. Removes Carpet Stains

No one likes looking at carpet stains, though we all know they happen. A small accident with a cup of coffee and you've got a stain that won't come out – or will it? With a carpet cleaning service you can have stains like Coffee, Ink, or from Pets removed. This helps the overall appearance of your carpet, and home. It will also help increase the lifespan of your carpet.

### 4. Make Your Home Looks Nicer

Your floor is the largest piece of furniture in a room. People notice it when they walk in, so if they are greeted by a large stain or unsightly carpet, it can give them an overall negative first impression. By making sure that your carpet is professionally cleaned on a regular basis you will improve guests first impressions and increase the overall aesthetics of your home.
