

# Deloitte names Wave to the Fast 50, the only company to make the Canadian top 20 three years in a row

TORONTO, ONTARIO, CANADA, November 15, 2018 /EINPresswire.com/ -- Today Deloitte released its Technology Fast 50™ award for 2018, recognizing Wave (waveapps.com) as one of North America's fastest-growing technology companies for the third year in a row.

The program and annual award distinguishes 50 Canadian technology companies with the highest revenue-growth percentage over the past four years.

The 2018 rankings mark the third consecutive appearance on the Fast 50 for Wave. With 1,647% revenue growth, Wave is the only company on today's list to attain a top-20 ranking for three consecutive years. The median growth rate for companies on the list was 878%.

"When we launched Wave in 2010, we were confident that there was a massive opportunity to provide entrepreneurs and small business owners with financial solutions embedded into their everyday software that would make it easier to run their business effectively. Wave's sustained growth validates that hypothesis, and is proof that the Wave team is executing incredibly effectively. I'm unbelievably proud of the team and what they do every day to serve small business owners," says Kirk Simpson, CEO and co-founder of Wave.

Wave was also named to the North American Fast 500, which recognizes technology companies across the U.S. and Canada.

To qualify for the Deloitte Technology Fast 50 ranking, companies must have been in business for at least four years, have revenues of at least \$5 million, be headquartered in Canada, own proprietary technology, conduct research and development activities in Canada and invest a minimum of five percent of gross revenues in R&D.
