

2nd Edition of the Blockchain Investment Technology Conference to take place in Dubai on 21st January 2019.

DUBAI, DUBAI, UNITED ARAB EMIRATES, November 22, 2018 /EINPresswire.com/ -- The Blockchain Investment Technology Conference Middle East (BITConME) event series returns to Dubai and promises to once again showcase some of the best start-ups in the Blockchain space.

With the increasing demand for Blockchain technology across multiple industries, BITConME 2019 aims to explore more use cases from ICO / STO start-ups with the intention of delivering a range of investment opportunities to Middle East Investors.

BITConME's uniqueness remains in its focus on case-study driven presentations in ongoing and upcoming Blockchain projects with over 700 participants from 15+ countries expected in the 2nd edition of the event series.

The pilot event which was held on the 25th of June 2018 at ATLANTIS - The Palm played host to hundreds of blockchain enthusiasts from across the globe with the likes of Blockchain Top influencers Mr. Simon Cocking, founder and senior editor of Irish Tech News, Ms. Sally Eaves, CTO and Thought Leader in Emergent Technology and Mr. Ari Zoldan, CEO Quantum Media Group and Tech Analyst (CNN, CNBC, Fox News) in attendance as the official event ambassadors.

Registrations are ongoing for BITConME 2019 and more information can be found on <https://www.bitconme.com/>

Blockchain, a digitized, decentralized, public ledger of all cryptocurrency transactions found early support in the UAE with the Dubai Blockchain Strategy being launched by His Highness Sheikh Hamdan.

This collaboration between the Smart Dubai Office and the Dubai Future Foundation continually explores and evaluates the latest technology innovations that demonstrate an opportunity to deliver more seamless, safe, efficient, and impactful city experiences. The Dubai Government has now implemented the Dubai Blockchain Strategy 2020, an initiative which is deemed to usher in economic opportunity for all sectors in the city.

The rising demand for Blockchain Technology is owed to the growing adoption of distributed ledger technology across multiple industries globally. Dubai's 'Blockchain Strategy 2020', also sends a clear statement that government entities see value in the adoption of Blockchain Technology.
