

Heilind Asia Pacific Expanded the Product Line with Harting

Heilind Asia Pacific announced an expanded inventory of electronic components and solutions from Harting.

HONG KONG , CHINA , November 27, 2018 /EINPresswire.com/ -- [Heilind Asia Pacific](#), part of Heilind Electronics Inc., announced an expanded inventory of electronic components and solutions from Harting which is one of the world's leading providers of industrial connection technology for the three lifelines of Data, Signal and Power.

Harting is wholly-owned by Germany Harting International Co., Ltd. and a member of the German Harting International Group. Its products are mainly used in rail transportation, power management, automation, machinery etc. "Harting is one of the world's leading providers of industrial connection technology; we are very pleased to be the authorized distributor of Harting. We believe the cooperation will enhance our supply capacity of connectors and other electronic components to the Asia market." said Andrew Tan, Regional Product Marketing Manager of Heilind Asia Pacific. Harting develops, manufactures and sells electrical and electronic connectors, device terminations, network components as well as cable harnesses for networks or machinery, or for power and data application in factories.

Heilind supports both original equipment and contract manufacturers in all market segments with products from more than 100 manufacturers in 25 different commodity categories. It was built and continues to operate on the ideals of deep inventory, flexible policies, responsive systems, knowledgeable technical support and unsurpassed customer service. It is these philosophies that have made Heilind the preeminent interconnect distributor in the world.
