

Rebel Herbs Announces Product Launch on Cyber Monday

Award winning company announces the release of 10 new single herb capsule products

BLOOMINGTON, INDIANA, UNITED STATES, November 27, 2018 /EINPresswire.com/ -- Rebel Herbs is excited to announce the launch of 10 original and certified [organic](#) single botanical [capsules](#), which applies to the company's guiding mantra that it should use the least number of herbs as possible to achieve a therapeutic method. The company's capsules include ginger, holy basil, boswellia, ashwagandha, amla, shatavari, neem leaf, triphala, guggul, and fenugreek. Rebel Herbs supplements are from a system known as Ayurveda.

The single herb capsules combine the power of CO2 extraction with the subtle therapeutic qualities of the hydrophilic extracts. The company's CO2 extracts are a pure and extremely concentrated (as high as 250:1). No chemical solvents or high heat is used, which ensures optimal stability and better absorption. Additionally, the supplements are subjected to testing for foreign material, contaminants, as well as microbiological and heavy metal testing.

Rebel Herbs includes a line of unique and innovative herbal supplements made exclusively from herbs and spices coming from the company's certified organic farms, located near the town of Santara in India. The company's operation is truly sustainable, as they not only grow organic produce, but have educated local farmers on organic and viable practices.

As a member of the Nisarga Biotech Group, Rebel Herbs is helping to sustain a wonderful way of life for over 400 Indian families near Mumbai. The company is looking to build a sustainable long term revenue engine for everyone in its chain of supply, therefore Rebel Herbs ensures that its workers are paid 20% more than the average wage for their positions.

Jason Edwards, CEO of Rebel Herbs, stated that he is "thrilled" and "continues to work hard to create more innovative and premium herbal supplements".
