The rapid advances in technology and their incorporation into the big picture is expected to be a substantial driver of market growth. Dentsply Sirona Inc, is one such market player, focusing increasingly on the launch of innovative products, upgrading its existing portfolio, and incorporating advances technology in products. Back in 2016, the company invested more than USD 128 million in the segment of product innovation. The increasing incidence of chronic diseases is also a major factor of market growth, supported by the sample fact that more than 11% adults in the U.S. were diagnosed with heart disorders in 2016, which led to a consequential increase in demand for cardiac chairs.

The growth in the number of clinics and hospitals is also a factor having a direct impact on the increasing demand for medical chairs. All segments of specialty medical chairs such as dialysis chairs rehabilitation chairs, and birthing chairs benefit from the increasing demand due to the expansion in the number of hospital and clinics. Inferring the data from the American Health Association reveals that more than 5000 hospitals were registered in the region in 2017 alone. The increasing prevalence of disability is also expected to aid the growth of the market.
