

Chain Open Research Opens (COR Index) Access to a Full Suite of Cryptocurrency Market Analytics

COR INDEX INC (New York, US) has released a platform for in-depth, real-time financial and economic analysis of cryptocurrency.

NEW YORK CITY, US, November 29, 2018 /EINPresswire.com/ -- COR INDEX INC (NEW YORK, US), a [platform](#) of deep analytics tools for financial and economic activity within the cryptocurrency space, opens access to its suite of market and exchange data.

Beside basic indicators, COR now offers a Market Indicators section which features exchange information (data?), quotes, information about price and trade volume based on exchange data in graphs and charts.

This section features all the tools necessary for market analysis:

Average Weighted Exchange Rate
— Analyzes cryptoasset rates in USD, factoring in trading volume and exchange data quotes.
— Calculations are based on trading volume and rates at the time of transaction.

Cryptoasset Volatility
— Displays price change in the analyzed period of time in percentages.
— Shows a coin index based on percentage changes in the average rate for a given cryptoasset.

Share of Cryptoasset in the Entire Cryptoasset Market's Market Cap
— Shows the share of a given cryptoasset in the entire cryptoasset market's market capitalization, expressed in USD.

Chain Open Research

COR Index

— Calculations are based on the entire cryptoasset market's market cap and the share of it that a given cryptoasset takes up.

Cryptoasset Trading Volume

— Displays the total number of cryptoasset exchange transactions made in the analyzed period of time.
— Tracks the sum value of cryptoasset exchange transactions made in USD and USDT

Cryptoasset Exchange Volume

— Displays the monetary equivalent of exchange transactions in USD in the analyzed period of time.

November 15th, 2018 18:00 UTC.  COR Index, Inc. (NY, US)

This document contains the following sections:
