

Invitation from James Drinkwater Chairing The 2nd Annual Pharmaceutical Microbiology East Coast Conference

The 2nd Annual Pharmaceutical Microbiology East Coast conference is returning to the Battery Wharf Hotel, Boston, USA on April 10th and 11th, 2019

BOSTON, MA, UNITED STATES ,
November 30, 2018 /
EINPresswire.com/ -- The two-day conference will be discussing best practices and techniques to tackle [microbial](#) control challenges within the pharmaceutical [microbiology](#) industry.

The Chair for the event was recently announced to be James Drinkwater, Chairman at PHSS and Head of Aseptic Processing Technologies & GMP Compliance, Franz Ziel GmbH

James currently holds the position of Chairman for the Pharmaceutical and Healthcare Sciences Society (PHSS) and lead the PHSS Annex 1 focus group from which 100 pages of comments were provided to the EMA during the revision consultation process. Also as part of the UK delegation from UCL: University College London, to provide Jordanian and Saudi Arabia FDA inspectors training on Quality assurance sterile product manufacturing including environmental control and monitoring for aseptic processing, and he is aware of current challenges and knowledge gaps for both the industry in regulators.

Mr Drinkwater says "As conference chair for the 2nd Annual Pharmaceutical Microbiology East Coast event in Boston, it would be my pleasure to invite you to attend this meeting on April 10th and 11th 2019.

Pharmaceutical Microbiology is a constant within all areas of pharmaceutical manufacturing and the field has been undergoing a period of vast change. With advances in rapid microbial methods, changes to regulations, our increasing knowledge of the human microbiome and new testing methods, the implementation of new strategies for contamination control and applying quality risk management (QRM) are challenging us all.

The Pharmaceutical Microbiology East Coast Conference will include presentations from colleagues with expertise in the following emerging disciplines:

SMi Presents the 2nd Annual Conference...

Pharmaceutical Microbiology East Coast

Discussing best practices and techniques to tackle microbial control challenges

Battery Wharf Hotel, Boston, USA
10 - 11
APRIL
2019

www.microbiologyeastcoast.com #SMiPharmaMicroEC

The poster features a central image of a petri dish with a red agar surface, showing various microbial colonies and streaks. The background is a light blue gradient.

- Science and regulation: preparing suitable contamination control strategies and ensuring CGMP compliance. Including a keynote session on considered impact from revision on Annex 1 on a new Aseptic processing Filling line to provide an insight to attendees of preparation for this upcoming major revision in GMP requirements for future projects.
- Rapid microbial methods, both implementation and an industry perspective on process automation
- Quality control considerations in microbial therapies and mycoplasma testing

Please download the brochure from the website for the full list of speakers and 2-day programme.

The 2019 agenda for the event is packed with hot topics, such as revision of Annex 1, contamination control, regulations of endotoxin detection methods and control, environmental monitoring, rapid microbial methods, sterility assurance, mold isolation, risk mitigation for mycoplasma, animal sera and much more.
