

TechAhead Named Top Global Mobile App Development Company

In its yearly announcement of B2B companies that are global leaders in their category, Clutch has included TechAhead among the leading developers.

LOS ANGELES, CALIFORNIA, UNITED STATES, December 1, 2018 /EINPresswire.com/ -- Every year, Clutch brings out an annual report of the leading B2B companies from across the world, recognizing them for their expertise in their category. [The Clutch](#) list, which is announced every November, is based on research of companies in four main categories, including Advertising and Marketing, Creative and Design, Developers, and IT and Business Services. The companies are evaluated not only on their expertise but also on their ability to deliver.

This year, TechAhead has earned a spot in the list of the best performing [mobile app development companies in the world](#) – a recognition of the company's commitment towards creating the best solutions for its clients. Speaking at the occasion, TechAhead CEO, Vikas Kaushik said, "We are honored to be [recognized by Clutch](#) as a leader in our category. The Clutch annual report is a prestigious list, and we consider this an accolade for our commitment to deliver quality solutions to our clients."

While companies can list for free on Clutch, only those that are leaders in their category make it to the annual report. The list, which covers 4 main categories, recognizes the expertise of around 700 companies across 65 subcategories. This year, as a new addition to the annual report, the Clutch 1000 will be announced to recognize the top companies with the highest scores on deliverability.

The Clutch Global Leader title is not easy to achieve. The scores are based on several criteria, including verified reviews, the company's client portfolio, the range of services offered and the experience in these services, and the company's visibility and reputation in the market. Clients' opinions play a significant role in the selection of the Clutch Global Leaders.

About Clutch: Clutch is a firm into B2B research, ratings and reviews. Based in Washington, DC the company aims to help small and mid-sized businesses to find the best fit for services such as marketing, advertising, design, development, IT, software and consultancy.

About TechAhead:

TechAhead is a mobile consulting, design and development company with a global reach. Through apps, the company has created success stories for both fortune 50 companies as well

as startups. The team follows an approach of bringing app ideas to life by nurturing it through each stage of development from concept to the end-user experience. By having created several notable apps across platforms and technologies, the company has gained recognition from Clutch, Sourcelysis, Best Web Design Agencies and Red Herring, among others. While the team is proud of its achievements, they are also humbled by the appreciation they have received, and it serves as inspiration for crafting more success stories for their clients.
