

The Michael Dukakis Institute and the Boston Global Forum Announce Strategic Alliance with AI World Government

AI World Government to focus on AI Ethics and AI-Government as Public Sector Deployment of AI

NEEDHAM, MA, UNITED STATES, December 4, 2018 /EINPresswire.com/ -- PRESS RELEASE

The Michael Dukakis Institute and the Boston Global Forum Announce Strategic Alliance with [AI World Government](#)

AI World Government to focus on AI Ethics and AI-Government as Public Sector Deployment of AI

Boston, MA – December 4, 2018 – The [Michael Dukakis Institute for Leadership and Innovation](#) and the Boston Global Forum have announced that they will be a Strategic Alliance Host of the [AI World Government Conference & Expo](#), being produced by Cambridge Innovation Institute. The event will be held on June 24-26, 2019 at the Ronald Reagan International Trade Center in Washington, DC.

According to conference founder and chair, Eliot Weinman, “We are pleased to continue our collaboration with The Michael Dukakis Institute for Leadership and Innovation and their Boston Global Forum (BGF). Former Governor Michael Dukakis has been an innovative global visionary for decades. For the past several years the BGF has conferred with government, research and technology experts to develop a framework for governments around the world to develop the proper AI ethics regulations. BGF, which created the concept of AI-Government on June 25, 2018 at Harvard University, and organized the first AI-government conference at Harvard September 20, 2018, will jointly develop a dedicated conference on this topic at AI World Government on June 24, 2019. AI World and AI Trends will also publish the continuing results of their research for our global audience.”

AI World Government Conference & Expo provides a forum to educate and inform federal, state, and local governments on the many benefits of deploying AI technologies. These agencies are like public and private “enterprises”, which AI World is established and known for. The government application of AI is already in its early adoption period and has been deployed in a wide variety of applications that have shown benefits. As AI continues to evolve at a rapid pace, the next generation of deployment will enable government agencies to:

- Provide better and enhanced services to its constituents
- Increase productivity and reduce costs
- Accelerate the overall digital transformation efforts underway throughout government agencies
- Introduce an AI-Government model

AI World Government is also the backdrop for shaping the discussion around ethics, safety, and regulatory requirements for machine learning, deep learning, computer vision, image and pattern recognition, and emerging intelligent automation solutions.

According to Nguyen Anh Tuan, CEO of the Boston Global Forum (BGF), “We have been

collaborating with Mr. Weinman and his team at AI World throughout 2018 to support the event as an International Host. We have several activities already underway at AI World 2018, and will continue our strategic alliance for all AI World 2019 events. We will present an AI-Government model at AI World Government.”

About the Michael Dukakis Institute for Leadership and Innovation (MDI)
(dukakis.bostonglobalforum.org)

Michael Dukakis Institute for Leadership and Innovation (MDI) was co-founded by Governor Michael Dukakis and Nguyen Anh Tuan. MDI generates important initiatives in AI in concert with the AI World Society 7-Layer Model, and AI-Government, World Leader in AI World Society Award. MDI is the publisher of Shaping Futures magazine. MDI Innovators are prominent leaders and scholars with Harvard, MIT, Brown, Tufts, Google, and The New York Times, with a Board of Leaders composed of: Chairman Michael Dukakis, Director Nguyen Anh Tuan, and professorship members Nazli Choucri, Thomas Patterson, David Silbersweig and John Savage.

At AI World Conference and Expo, December 4, 2018, MDI and BGF announced the AIWS Report About AI Ethics, and Government AIWS Ethics and Practices Index, the first AI Ethics Index about governments.

About AI World Government (AIWorldGov.com)

AI World Government Conference & Expo provides a forum to educate and inform public sector agencies (federal, state, and local governments) and its supply chain on the many benefits of deploying AI technologies. These agencies are like public and private “enterprises”, which AI World is established and known for. The government application of AI is already in its early adoption period and has been deployed in a wide variety of applications that have shown benefits. The event will be held at the Ronald Reagan International Trade Center in Washington, D.C
