

iStorage diskAshur PRO² and diskAshur DT² encrypted HDD/SSD passes highly prestigious FIPS 140-2 Level 3 certification

iStorage diskAshur PRO² and diskAshur DT² PIN authenticated hardware encrypted HDD/SSD passes highly prestigious FIPS 140-2 Level 3 certification

PERIVALE, MIDDLESEX, UNITED KINGDOM, December 5, 2018 /EINPresswire.com/ -- (London, Dec, 2018), [iStorage](http://iStorage.com), the award-winning and trusted global leader of PIN authenticated, hardware encrypted data storage devices, is delighted to announce that their diskAshur PRO² portable HDD/SSD and diskAshur DT² desktop HDD are now [FIPS 140-2](http://FIPS140-2.com) Level 3 certified after months of rigorous tests. This is in addition to recent news announced only a few months ago that both products were certified to NCSC CPA, NLNCSA BSPA & NATO Restricted Level, making iStorage the world's first and only company to have all these certifications.

Says John Michael, CEO, iStorage Limited

“It has been an incredible year for iStorage – having successfully passed and being awarded both the NCSC CPA and NLNCSA BSPA certificates, then having both these products listed in the [NIAPC catalogue](http://NIAPC.com) after achieving NATO Restricted level, and now this, passing the FIPS 140-2 Level 3 certification. This a fantastic accolade and testament to the many years of research and development that iStorage has invested in developing the diskAshur PRO² and diskAshur DT² products. We are proud to be able to offer products with credible certifications that reassure businesses and government organisations throughout the world of the robust level of data protection offered.”

Pricing, specifications and availability:

iStorage diskAshur PRO² and diskAshur DT² can be found on iStorage's website

diskAshur PRO² HDD: <https://istorage-uk.com/product/diskashur-pro2/>
