more advanced and experienced. People are able to network and really learn from each other."

Now residing in Las Vegas, Viscuglia is originally from western New York where he was a machinist and computer programmer. His goal was always to financially provide well for his

"I started Trading Made Easy four years ago and it's grown very fast !! said James Now we have Cambridge Trading Academy to help people trade on their own. If someone wants to learn how to day trade effectively and is willing to put in the time to learn and work a few hours each day, they can succeed," says Viscuglia. "In the day trading group, we have everyone from beginners to those who are

family, which includes four children, the oldest one in music school . After learning about trading from mentors and trading on his own, Viscuglia created a day trading group and then the software. The Cambridge Trading Academy is the next step.

The group trades on the E-Mini S&P 500 Future since 2014 and Stock as well as the Eurex Exchange Mini-DAX. Viscuglia's software runs 23 hours a day and notifies the user with a ping when there is a trade. They then have two to five minutes to make the trade if they desire. The proprietary software is based on the Stock Trendline and EMA Stock line but has been reversed-engineered and set at a different timeline. His group does price action trading and earns when the market goes up or down. The group has been very successful finishing each week and month in the positive.

Once the software is purchased, the user can download it on any computer or mobile device or on multiple devices. Training can last up to a month and the intensive curriculum takes traders from point A to point B. It teaches someone that knows nothing about day trading and gives them access to the more than 50 years of combined knowledge and tips from those in the industry.

Viscuglia also allows those interested to try it and test it out for free. He is also set to live stream a live trading session, which will be accessible via Google, Yahoo, Bing, Facebook and Twitter. To learn more and purchase the software, visit [CambridgeTradingAcademy.com](http://CambridgeTradingAcademy.com).
