

Capitalize on the booming kiosk market by investing in an emerging industry leader

BIRMINGHAM, ALABAMA, US,
December 10, 2018 /

EINPresswire.com/ -- Juke has changed the world of self-ordering kiosks with innovative solutions designed to generate substantial revenue for restaurants. Now, the thriving Alabama start-up allowing those who want to capitalize on its success to join the company's investment team.

Juke, operating for more than five years, has rapidly gained success by manufacturing a complete hardware and software solution focused on the restaurant and hospitality industries.

The company, with seed funding from its founders, has gained market share by consistently generating more than a million dollars in revenue annually throughout its infancy.

Solidifying a foothold in the kiosk market, Juke, with machines deployed worldwide, has begun making available immediate opportunities for outside investors to become part of and benefit from one of the fastest growing industries in the world.

Juke intends to raise capital to expand its technology into other industries, as well as develop advanced artificial intelligence technology. Juke leaders want to do what similar companies have done – provide scores of jobs for residents and generate millions in tax revenue for the state.

Kiosks are a key piece of the worldwide technology revolution. These units -- ranging from free-standing machines to hand-held devices – are being used almost everywhere, at airports, banks, transportation facilities, restaurants and hospitals. Kiosks have significantly changed the landscape of the business world, in many cases forcing employees to learn new skill that make them more value to their employers and the customers they serve.

While kiosks become more prevalent, their presence will only continue to grow. That's why it's

vital that local businesses and states that are not prepared to embrace the rapid spread of technology in the consumer space many tax dollars and businesses can be lost. Recent research shows the self-service kiosk industry is expected to reach \$36 billion dollar in revenue by the year 2024.

Restaurants are choosing Juke because the company helps restaurants generate more revenue and profit, smooth their operations by making labor more efficient and reducing theft and enhance the consumer experience in such a way that keeps them coming back.

What separates Juke from the competition is the team's expertise, proven strategies targeted to meet a restaurant's specific needs and, of course, its diverse product lineup.
