

TIDDOX Launches 1000 Sheet 3-Ply Jumbo Paper Towel Roll

Targets Industrial, Automotive, Painting, Mining, Food & Medical Markets

SYDNEY, AUSTRALIA, December 11, 2018

/EINPresswire.com/ -- [TIDDOX](#) a leading wipes, cloths and rags specialist, today announced the introduction of its new European manufactured [3-ply 1000 sheet Jumbo Paper Towel Roll](#), which has applications in the industrial, automotive, painting, printing, mining, food service, hospitality, and medical markets.

The focus of the design and development of this product was to provide professional users with a cost-effective, quality-manufactured paper towel roll incorporating the latest innovative technologies of micro-embossed synchronized lamination. The result is high tech 3-ply, glued wipers that are stronger, more absorbent, tear resistant and have extra wet strength. These features enhance the durability and effectiveness of the paper towels, making them suitable for industrial and commercial cleaning.

Introducing the new European manufactured 3-ply 1000 sheet Jumbo Paper Towel Roll”

TIDDOX

Each 350m roll contains 1000 sheets of 3-ply glued micro-

embossed mixed cellulose blue wipers (36.5cm width) that are solvent resistant, capable of heavy-duty applications involving oils, grease, lubricants, paints, inks and absorbing other viscous liquids. The rolls are an economical, general purpose solution in workshops and factories, and can be dispensed from either floor or wall metal dispensers.

Due to their near lint-free performance, these non-scratch blue towels can also be used for delicate cleaning tasks such as cleaning glass, polishing sensitive equipment parts and wiping down surfaces.

Given the disposable nature of these single-use towels, they are increasingly popular in hygienic environments to dry hands and clean surfaces, and strong enough not to tear or break apart easily.

With 1000 perforated sheets on each roll, they are a cost-effective, cloth and rag replacement that is more easily transported and stored.

More and more businesses are switching from unhygienic, increasingly expensive cloths and rags, to these cost-effective, disposable wipers. With their good wet strength, high absorbency, tensile strength, and affordability, it is not hard to see the appeal of this product over traditional cloths and rags.
