

# Apollo Med Innovations Announces 2019 PDO Thread Master Training Schedule

*Apollo Med Innovations, an authorized distributor of FDA approved Miracu PDO Threads, expands its training program to multiple cities in 2019*

PEACHTREE CITY, GA, UNITED STATES, December 11, 2018 /EINPresswire.com/ -- Apollo Med Innovations, LLC (Apollo) is proud to announce its 2019 PDO Thread Master training schedule. Apollo is an authorized distributor of [Miracu PDO threads](#); the only FDA approved non-anchored PDO thread in the market today.

“

I only use Miracu PDO threads in my practice and train for Apollo due to the tangible benefits of Miracu threads and Apollo's unyielding commitment to best practice education and hands-on application”

*Dr. Michael Schreiber*

The Apollo Master Training program is designed to provide Doctors, Med Spa practitioners and leading aesthetic practices with both an extensive hands-on education as well as didactic session focused on the value and efficacy of [PDO threads](#) procedures as well as patient diagnostic techniques. Attendees will gain a broad educational foundation in PDO threads lead by some of the world's most experienced and trusted Doctors with a ratio of no

less than 1 Doctor trainer for every 5 attendees. The Apollo Master class is designed to provide attendees with enough hands-on experience (the average attendee works on 7 models and places more than 200 threads) to feel comfortable adding PDO threads as a meaningful part of their practice.

The Master Training Schedule for the first half of 2019 is as follows:

- Atlanta, GA - January 19-20
- Las Vegas, NV – February 16-17
- Dallas, TX – March 16-17
- Atlanta, GA – April 20-21
- Las Vegas, NV – May 4-5
- Dallas, TX – June 15-16

“I have trained for many of the major PDO thread companies and this is the most extensive hands-on training offered in the market today” said Dr. Michael Schreiber, a leading PDO thread practitioner and educator. “I only use Miracu threads in my practice and train for Apollo due to all the tangible benefits of Miracu threads and Apollo's unyielding commitment to best practice education and hands-on application.”

In addition to being the only FDA approved PDO thread, Miracu threads are tangibly different in a number of areas that lead to improved patient outcomes and comfort. Some of the Miracu PDO thread advantages include: thinner needle outer shell wall which leads to a more flexible needle and less tissue trauma, Miracu threads are molded not cut, leading to superior tensile strength and Miracu threads have the widest variety and selection of threads.

“Apollo is proud to partner with DBM Corporation to distribute Miracu PDO threads” said Randy Wright, CEO, Apollo Med Innovations, “As the only FDA approved thread in the market, Miracu is a fantastic fit for our company as we are dedicated to providing our Doctor partners the best combination of product, patient efficacy, price and education. The testimonials of the Apollo trained Doctors taking our courses validates our decision to distribute Miracu threads and continue our Master training education.”
