

Lynette R. Monzo of Monzo HVAC Consulting to be Featured on CUTV News Radio

FAIRFIELD, CALIFORNIA, UNITED STATES, December 12, 2018

/EINPresswire.com/ -- Energy efficiency is all about doing things better, smarter and faster, identifying ways to save money by being less wasteful with the energy we consume.

Lynette R. Monzo is the founder of Monzo HVAC Consulting, which specializes in energy efficiency. Monzo HVAC Consulting helps property managers and owners run buildings more efficiently; it's greener for the world and more green in your wallet.

"Controlling HVAC equipment saves you energy, which in turn saves you money through your energy bills," says Monzo.

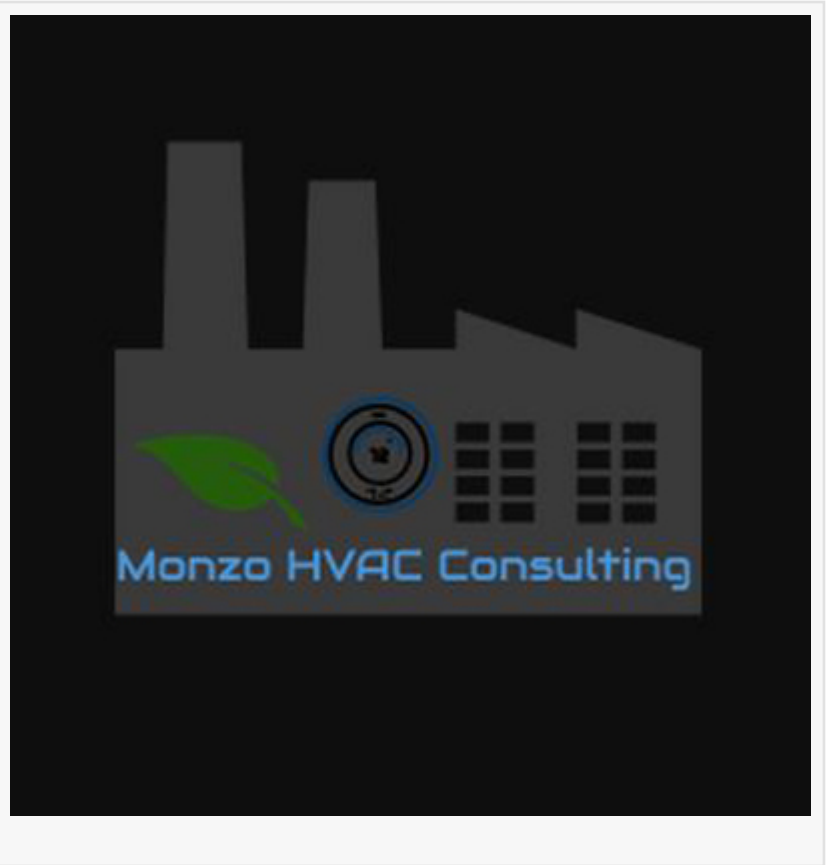

Monzo works primarily with hotels, restaurants, and commercial buildings with multiple tenants, monitoring and controlling HVAC units remotely to run only when they should run and how much energy to expend based on what the tenants' needs are. Why run a fan all day if someone is not using the space all day?

Monzo can even monitor to see what opportunities exist for further efficiency.

"If there's an issue with the unit they can either make adjustments, or we can catch it before a major failure happens if we're monitoring the building," says Monzo. "By adjusting the HVAC to run according to the tenant's needs, they end up saving electricity, so their electric bill goes way down. We have multiple customers who have saved \$100,000 in one month." This was also after a major controls upgrade, but the savings vary according to each building.

Though the consultancy has only been independent for two years, Monzo and her husband have worked in the industry for over 25 years, earning a stellar reputation in the process. The strength of their relationships with their customers have allowed Monzo HVAC Consulting to enjoy success very quickly. They plan to expand beyond California to other states.

“We’ve been in the business for a long time before striking out on our own two years ago,” says Monzo. “Our customers knew our ethics, liked how we worked because we found these opportunities while we were servicing their HVAC Units. Customers are with us because of us, because of our team, because we care about the customer.”

CUTV News Radio will feature Lynette R. Monzo in an interview with Doug Llewelyn on December 14th at 4pm EST and with Jim Masters on December 21st at 4pm EST.
