

MEDOCTOR developing ASIA TELEHEALTH MARKET

MEDOCTOR SYSTEM IS BEING SUCCESSFULLY DEPLOYED IN ASIA

JACKSONVILLE, FLORIDA, USA, December 13, 2018 /EINPresswire.com/ -- MEDOCTOR developing ASIA TELEHEALTH MARKET

The Medoctor System is being successfully deployed in Asia.

Medoctor is providing users in India, Pakistan, the Philippines, Vietnam and people throughout Asia with the opportunity to do a health assessment, free-of-cost and create a personal health record. Anyone with a health problem, pain or discomfort can click on www.medoctor.com and determine their health situation - without payment.

Young mothers using cellphones are the largest market, they need to care for their children, spouse and sometimes parents. Over 70% of Medoctor users access www.medoctor.com on their iPhone or Android, others use tablets or laptops. Users answer simple YES / NO symptom questions generated by the Medoctor Engine to produce a complete differential diagnosis. The Medoctor user can save the results to show or email to their family doctor. Medoctor's motto is "Assisting Physicians Worldwide".

Family physicians dramatically increase their daily throughput with the extensive results produced by the Medoctor System. Using the patient's time to save the clinician's time, an electronic health record is created automatically - a cost and time saving for both the doctor and the patient.

Medoctor is interested in creating relationships with medical professionals and health institutions, including pharmacies and advertisers. Contact info@medoctor.com .

Medoctor has been demonstrated at the World Health Organization in Geneva and the International Telecommunication Union sponsored a pilot for Medoctor at a Women-Led-Telecentre in Zambia. Clinical trials of Medoctor were conducted in Vietnam.

Financial institutions and healthcare organizations are invited to contact Medoctor, Inc., a USA corporation, regarding partnership, participation or representation. Qualified parties are invited to contact ceo@medoctor.com to arrange a discussion on Skype - address medoctorceo.
