

# mycloud Hospitality Platform Scoops Express IT award in Recognition of Superb Cloud Solution

*Express IT has honoured the mycloud hospitality platform from Prologic First with its Cloud Solutions Runner Up Award.*

LONDON, UNITED KINGDOM, December 14, 2018 /EINPresswire.com/ -- Hot on the heels of the Smart SMB award it won in October 2018, the mycloud hospitality platform from Prologic First has once more been recognized as a result of its superb, [cloud-based hotel management software](#). With nearly 500 entrants spread across the nine award categories, Prologic First beat off stiff competition to scoop Express IT's Cloud Solutions Runner-Up Award in November 2018. The Express IT award was presented by Union Minister of India for Electronics and Information Technology, Mr. Ravi Shankar Prasad. It adds to those that mycloud has already won from Finances Online, Software Suggest, and Smart SMB.

[mycloud's innovative hotel software](#) is an all-in-one solution for those running establishments in the hospitality industry. The comprehensive system includes a vast array of functions, including guest-facing services, a web booking engine, front desk operations, an e-POS service, and a complete back-office.

mycloud provides a SaaS-based, integrated, fully automated solution that allows hotels to

“

The entire Prologic First team is delighted to have received this prestigious Express IT Award. We strive constantly to ensure that our cloud solution remains at the forefront of the industry.”

*Deepak Chauhan*

optimize revenues through enhanced operational management and smart metric reviews. With budget-friendly, tiered pricing, the system is suitable for small to mid-size hotels of all sizes, from single establishments to vast international chains. It allows those managing the business to control everything from guest sentiments, housekeeping and maintenance services to financial planning through a single, user-friendly interface. Hoteliers can automate distribution to OTAs, undertake multi-currency transactions and chain-wide review analysis, coordinate food and beverage expenditure and even glean intelligence on competitors' rates.

Prologic First Vice President – Cloud Services Deepak Chauhan explains, “The entire Prologic First team is delighted to have received this prestigious Express IT Runner-

Up Award. We strive constantly to ensure that our hospitality cloud solution – mycloud – remains at the forefront of the hospitality industry, updating and refining the system to ensure that it brings maximum value to the establishments that use it. I'm thrilled that this has once again been recognized with a prestigious industry award."

One of mycloud's unique selling points is that it offers a single comprehensive platform, which helps hoteliers deal with one vendor, offering everything from guest services to taking a departmental trial balance. Another highly useful feature of mycloud is its unique chain-based capabilities. The system allows hotel chains to manage reservations across properties via CRS. It provides a comprehensive view of the guest journey across properties, along with central control of travel agents and companies. It complements these with reports to ensure that management gets a complete overview.

Easy to integrate and a joy to use, the multi-award winning mycloud hospitality system's comprehensive features are supporting businesses around the world to run their properties more efficiently and more cost-effectively.

mycloud is available to hospitality businesses in the UK, USA, UAE, Philippines, Thailand, India and Singapore. For further details, visit [www.mycloudhospitality.co.uk](http://www.mycloudhospitality.co.uk) or email [info@mycloudhospitality.co.uk](mailto:info@mycloudhospitality.co.uk)
