As the only meeting solely dedicated to enhancing soldier modernisation programmes, Future Soldier Technology 2019 will provide a unique opportunity to see how emerging technologies and materials are used to overcome challenges in soldier modernisation programmes, from across the world. It will explore the key categories for development, such as: survivability, lethality, sustainability, mobility and C4i. Along with soldier modernisation programmes from: IdZ-ES, FELIN, ISSP, Land 125, Sistemas de Combate do Soldado, and more.

-- END --
