EINPresswire.com/ -- While the whole country, all pollsters , channels and newspapers were predicting a BJP victory in Chhattisgarh, master strategist Dr Jawahar Suriseti stuck his neck out and posted on Facebook Page on 1st November 2017 that the future in Chhattisgarh was Congress. It raised alarms and he was trolled by the audience and political class and not even the Congress took it seriously. As the battle in the Hindi heartland heated up , pollsters stepped in and despites predictions that Rajasthan and MP were going the Congress way , Chhattisgarh was the favourite to retain power the fourth time . The Government obviously was happy with the predictions of the media . Come September and #DainikBhaskar carries a series of election

related analysis and invited Dr Jawahar to write a column called Vote Bank Se Aage and again every article of the series by the Master Strategist carried a rationalisation of his one year old prediction where he pointed a critical analysis of six points as to why he thought the groundswell favoured the Congress. He decimated the detractors in what is today called a marvel of analytics in political circles much ahead of the election season so much so that had

BJP taken it seriously it could have saved a few blushes in Chhattisgarh.

He had predicted how the religious and caste card wouldn't work , he had predicted that the Congress manifesto and candidate choice was better and more effective on the ground, he also was critical of the fact that youth representation was missing from the BJP candidate selection and the same old faces were repeated and so on . Again as the elections neared , his analysis was trashed and was considered to be just a piece of attention seeking exercise. But he religiously stuck to it vociferously. He also went on to get both the other states right. He predicted a comfortable Congress win in Rajasthan and a tight fight in MP.

Come results day and he was invited on the most popular news channel of Chhattisgarh and MP #IBC24 and at 11 am he again made the same analysis and by evening he was touted as one of the best analysts and those who did not pay heed to what he said were gung hi about what he said .

Dr Jawahar Suriseti explained that if the eyes and ears are close to the ground we could reach closest to the facts. The problem is taht if we are a political party we have our own biases and justification for everything and hence many a times we tend to create a vision conducive to our

bias . In the case of media , he said that are sometimes biased either due to political affiliations or commercial reasons hence the lack of neutrality effects our predictions. Lack of fear of political repercussions while predicting and a clear mind will lead to better analytical in future says Dr Jawahar Suriseti, who has had the last laugh.
