Gulf Management Systems, a merchant provider of premium payment processing solutions, enters a new relationship with Sunsoft, Inc. an innovator of valuable software in the MLM industry.

Clearwater, FL – December 15, 2018 – Gulf Management Systems, a merchant service provider of premium payment processing solutions, has partnered with Sunsoft, Inc., the provider of world's most advanced [MLM software](#), to expand payment integration options for all Sunsoft, Inc. customers while offering value to its clients through Gulf Management Systems to expand its reach in the payment solutions industry. Gulf Management's ACH recurring payments application will now be integrated into the Sunsoft' software platform as a default payment option, proving as a beneficial partnership for both organizations in terms by transaction fee and turnkey solution.

ACH Payment Processing

ACH Payments

According to Gulf Management Systems representatives, ACH payments processing is among the

most value-conscious methods to accept recurring payments, potentially saving businesses up to 80-percent in processing compared to credit card protocols. As an alternative to wire transfers, ACH allows businesses to keep their bank account number safe from customers, with Gulf Management offering businesses many options with regard to accepting ACH payments through its integrated API. As per the Direct Selling Association (DSA) the MLM market is \$34.9 Billion in USA alone.

Offering the world's most advanced MLM software with 2FA cybersecurity, KYC, Wallet management technology, Sunsoft' Software platform utilizes an assurance software development practice and 5S modular framework to help a myriad of Fortune 500 companies manage and control their networks with simplified genealogy and tabular views of those networks. Through this alliance the Sunsoft clients are awarded the endless opportunity to seamlessly integrate legacy software for inventory, accounting, CRM, global tax compliance and much more for efficient operation, all the while offering support for more than 120 multiple payment gateway options- including all cryptocurrency business wallets- based on a company's business model.

Gulf Management Systems payment allows businesses to integrate payment processing into their current software or website via an API Key, converting their software or website into a payment processing service.
