

MENTIS Announces the Release of Version 8.1.4

MENTIS releases the latest version of its data & application security platform with new features, enhancing performance, flexibility across cloud & on-premise.

NEW YORK, NY, UNITED STATES, December 19, 2018 /EINPresswire.com/ -- MENTIS announces

We passionately believe in continual innovation (56 releases in the last 14 years) and we continue our mission of keeping enterprise sensitive data safe."

*Rajesh Parthasarathy,
Founder and CEO*

the release of MENTIS 8.1.4. This robust new version includes performance enhancements, adds new methodologies, and extends support to new platforms. Among the new features are agent-based discovery as an enhancement for sensitive data discovery and a web proxy method for cloud application solutions; in addition, dynamic data masking for databases is extended to DB2 LUW and ZOS mainframe platforms. MENTIS continues to break new ground in sensitive data discovery. The agent-based discovery methodology combines with optimized algorithms to boost functionality and performance.

In data masking, MENTIS added new capabilities to secure sensitive data in:

- Cloud applications/SaaS software: a web proxy solution to enable enterprises to have consistent on-premise and on-the-cloud data security. MENTIS now provides three different solution approaches – web proxy, proxy redirect, and forward proxy.
- Mainframe: new capabilities that bring industry-leading dynamic data masking capability to the mainframe.
- Masking: Translator for cross-border service incident management in production support and maintenance.

Rajesh Parthasarathy, founder and CEO of MENTIS commented, "We passionately believe in continual innovation (56 releases in the last 14 years) and we continue our mission of keeping enterprise sensitive data safe - wherever it is along the information lifecycle - with products that can get ahead of the challenges our customers face. The added capabilities featured in 8.1.4 in sensitive data discovery and masking reinforce the leadership and commitment to innovation of MENTIS in the enterprise data security space."

Suresh Sundaram, Executive Director at MENTIS, added, "MENTIS is winning customer and

industry trust through the active deployment of solutions in complex and demanding environments. To do business in the global economy requires enterprise customers in the US and Europe to step up their security and compliance programs. They rely on MENTIS as a crucial partner in their efforts, and MENTIS thrives on the challenge. This latest release brings new functionality, added flexibility, and performance enhancements for compliance enforcement, cross-border data access, test data management, and the securing of sensitive data in cloud applications and data warehouses.”

[ABOUT MENTIS](#)

Founded in 2004, MENTIS was one of the first companies in a new data security market. Guided by a visionary founder with a deep grounding in both business and technology, MENTIS immediately began to innovate and has never since stopped. Known for its responsiveness to the moving target that is risk and compliance, MENTIS continues to bring powerful products to the market, the result of the company’s deep analysis of new trends in risk, and collaboration with its customers to assess and weigh their current challenges.

The MENTIS platform comprises a comprehensive solution that protects sensitive data along its lifecycle in the customer’s systems. Products provide capabilities from discovery, masking, and monitoring to data retirement. Engineered with a unique, scalable architecture and built-in separation of duties, MENTIS is the solution of choice to deliver comprehensive, consistent, and reliable data and application security across data sources (mainframe, relational databases, unstructured data, big data, on-premise, and cloud).

MENTIS helps protect the data of some of the most iconic industries and institutions in the world. Our customer roster includes internet commerce pioneers and national airlines; higher education institutions ranging from the Ivy League to Land Grant schools; international industrial behemoths and retail giants; and global enterprises in the highly regulated financial services and healthcare industries.
