

Silent-Aire Named Top 10 Data Center Solution Provider- 2018 by CIO Applications

EDMONTON, ALBERTA, CANADA, December 20, 2018 / EINPresswire.com/ -- Silent-Aire has been named one of the [Top 10 Data Center Solution Providers - 2018](#) by CIO Applications, an independent technology magazine that specializes in enterprise solutions. The list includes 10 companies that are at the forefront of providing data center solutions that are impacting the marketplace.

According to the CIO Applications website "The data center ecosystem is witnessing more disruptive technology implementations as organizations adopt newer technologies...the dominance of big data, IoT and machine learning will continue to fuel innovation in the data center landscape...these technology vendors are spearheading innovation in the data center arena."

"We strive to be innovators in the hyperscale data center industry that is driven by technology" Liam Thedford, Executive Vice President at Silent-Aire. "We recognize that delivering quality and meeting project schedules and deadlines is a key ingredient to successful hyperscale deployments."

"We will always be customer-centric. Hyperscale customers need partners that grow with them globally, and we dedicate and devote ourselves and our business to be reliable and meet those needs. We will continue that growth pattern as we strive to be trusted by the the world's largest data centers" Dan Leckelt Co-CEO at Silent-Aire.

Silent-Aire was previously named [Top 25 Data Center Tech Companies - 2017](#) by CIO Applications. "Being recognized a technology leader in data center industry is a reflection of our corporate culture built on innovation and our world class design and engineering team. We embrace challenging the status, solving problems as we want to be game changers and competitive advantages for customers in the data center industry" Lindsey Leckelt Co-CEO at Silent-Aire.
